## Enterprise Security Intelligent Terminal BC-PDR-203

Black Copper Enterprise Security Intelligent Terminal BC-PDR-203 uses Android 4.0 system and supports one-dimensional and two-dimensional bar code scanning. As for industrial design,it has reached IP67,and it's professional for enterprise data security.

## Features & Benefits

### 1- All-in-one solution

HF RFID reader/writer, 3.5G world mobile phone, mobile computer, bar code scanner, high resolution digital camera and GPS expanded device functionality, to protect your investment and to minimize total cost of ownership (TCO).

### 2- The most rugged design and reliability

BC-PDR-203 can affords multiple drop (impact) test up to 5ft./1.5m, IP65 sealing complete protection against dust and splashing liquid, upgraded shock absorption for internal main circuit board and all electronics.

### 3- Innovative scanning barcode technology

Integrated imager provides perfect bar code scanning performance which is superior to other scan engines in the market. It delivers high speed, accurate 1D barcode reading in any orientation, and decodes even low-quality symbols at various conditions.

### 4- Ergonomic and pocketable shape design

Human factor has been deliberate concerned regardless of hand size with overall device interaction is highly intuitive. It has integrated 3 scanning trigger keys which is facility to capture the barcode data when and where you need it.
